SUPPLEMENTARY INFORMATION: Sonoma Marin Area Rail Transit has requested a temporary change to the operation of the Haystack Landing Drawbridge across the Petaluma River, mile 12.4, at Petaluma, CA. The drawbridge navigation span provides approximately 3 feet vertical clearance above Mean High Water in the closed-to-navigation position. In accordance with 33 CFR 117.187(a), the draw is maintained in the fully open position, except for the crossing of trains or for maintenance. Navigation on the waterway is commercial and

recreational.

The drawspan will be periodically secured in the closed-to-navigation position, during daylight hours from 6 a.m. on August 31, 2015 to 6 p.m. on October 19, 2015, due to bridge replacement construction. During daylight hours, the bridge will be secured in the closed to navigation position for construction, and will require four hours advance notice for bridge openings for commercial vessels moving on the tide.

Scheduled 30-minute bridge openings will be provided at midday for the passage of accumulated, small vessels. The bridge will be secured in the open-to-navigation position nights and weekends, when no work is in progress. This temporary deviation has been coordinated with the waterway users.

Vessels able to pass through the bridge in the closed position may do so at anytime. The bridge will be able to open for emergencies upon two hours advance notice. There is no alternative route available for vessel traffic. The Coast Guard will inform waterway users of this temporary deviation via our Local and Broadcast Notices to Mariners to minimize resulting navigational impacts.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This

deviation from the operating regulations is authorized under  
33 CFR 117.35.

Dated: August 21, 2015.

D.H. Sulouff,  
District Bridge Chief,  
Eleventh Coast Guard District.
